

The screenshot shows the AWS IAM console's 'Billing Alarms' page. The page has a green header bar with a success message: 'Successfully created alarm Billing Alarm.' Below this is a blue banner with a warning: 'Some subscriptions are pending confirmation. Please IAM support and messages to be completed until the subscription is confirmed.' The main content area is titled 'Billing alarms (1)' and contains a table with one entry: 'Billing Alarm'. The table has columns for Name, State, Last state update, Conditions, and Actions. The 'State' is 'Inactive', and the 'Last state update' is '2022-04-03 00:20:01'. The 'Conditions' column shows 'EstimatedCharges >= 10 for 1 datapoints within 6 hours'. The 'Actions' column shows 'Actions enabled' with a green checkmark. A red arrow points to the 'View details' link in the top right corner of the table.
